SUMMARY

Software Engineering graduate with practical experience developing and maintaining enterprise web applications and WordPress platforms during an industry internship. Skilled in Angular, TypeScript, PHP, Laravel, Flutter, Firebase, and Git, with experience implementing analytics dashboards, reusable components, API integrations, responsive interfaces, and content management solutions. Strong problem-solving skills with the ability to collaborate across technical and business teams to deliver maintainable software solutions.

EDUCATION

University Malaysia Pahang Al-Sultan Abdullah, **Oct 2022 - Aug 2026**
Bachelor of Computer Science (Software Engineering) with Honours

- Current CGPA: **3.76**

SKILLS

- **Programming:** Java, PHP, TypeScript, JavaScript, Dart, C, HTML, CSS
- **Technologies:** Laravel, Flutter, Firebase, Angular, Express.js, WordPress, Tailwind CS, Google Apps Script
- **Databases:** MySQL, Firebase Firestore
- **Tools:** Git & Github, VS Code, Android Studio, LocalWP, Ubuntu (WSL), Postman, Figma
- **Soft Skills:** Teamwork, Time Management, Communication, Adaptability, Problem Solving

EXPERIENCE

Software Engineer (Internship) **March 2026 - Aug 2026**

WORQ (Incompleteness Theorem Sdn Bhd), Petaling Jaya, Selangor

- Developed and enhanced enterprise web applications and ERP modules using Angular, TypeScript, NgRx, and WordPress, improving maintainability through reusable components and streamlined frontend workflows.
- Developed automation solutions using Google Apps Script and OfficeRnD APIs to automate booking notifications, event reminders, and operational reporting processes.
- Collaborated with Marketing, Sales, Operations, and Development teams to deliver software solutions aligned with business requirements.

PROJECT INVOLVEMENT

AI-Powered Management System with Intelligent Chatbot (Meraki Pizzeria Cafe) - Final Year Project

- Developed a full-stack restaurant management system using Laravel, MySQL, and REST APIs with an OpenAI-powered chatbot to automate customer support and reservation management.
- Implemented RESTful APIs, relational database design, and MVC architecture, enabling scalable backend services and efficient data management.
- Integrated an OpenAI-powered chatbot that automated responses to customer inquiries and reservation request

Thesis Master Gate System

- Developed a web-based thesis management system using Laravel, MySQL, Javascript, HTML, CSS and Bootstrap to support thesis-related workflows.
- Implemented role-based authentication and authorization for multiple user roles within the registration and login modules
- Collaborated in an Agile team environment to build a centralized platform for managing users, thesis records, and academic processes.

ACTIVITIES

AJK TECH RUN UMP

- Contributed to organizing the Tech Run & Pelancaran Tabung “We Care” event.
- Demonstrated strong teamwork and communication skills in coordinating tasks and supporting event operations.

Participated In Netball Competition

- Collaborated with teammates in competitive tournaments, strengthening communication, teamwork, and leadership skills.
- Demonstrated adaptability and discipline through consistent training and competition participation.

CERTIFICATE AND TRAINING

- CCNA: Introduction to Networks (Cisco)
- SAP Beginner Training
- Power BI for Beginners
